1880, MS-65 ..... 315.00
1884, MS-65 ..... 495.00

1886, Proof-65 ..... 345.00
Without question, three cent nickels are among the most underrated of all U.S. coins. The mintages are exceptionally low. This is a "proof-only" date with an original mintage of only 4,290. Certainly far fewer than this number can be found today in such a well preserved state.

SHIELD NICKELS

1866, With Rays, MS-65 ..... 1150.00
By the terms of the Act of May 17, 1866, no paper currency below the value of 10¢ could be issued. As a result, and largely through the efforts of pressure groups, the first nickel 5¢ pieces were released. Most of these coins must have circulated because true mint state specimens are quite scarce today. Sometime during the next year, the rays on the reverse were dropped, creating a two-year type coin (1866-1867.) This date is very popular and, in gem MS-65, is in constant demand as a type coin. This piece is absolutely brilliant and shows a sharp strike. A die crack on the reverse runs from the first A in AMERICA to the S in STATES.

1912-D, MS-60 ..... 215.00
MS-60+ 250.00

1912-S, MS-60+ 550.00
With its mintage of 238,000, the 1912-S nickel is becoming increasingly more difficult to find in mint state. The strike of this specimen is better than most 1912-S nickels. Lightly toned.

BUFFALO NICKELS

MS-65 ..... 49.00
1913-D, Type I, MS-60+ 59.00

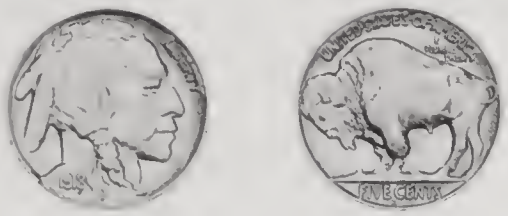
1917, MS-65 ..... 65.00
1918, MS-65 ..... 135.00



1918-D, MS-65 ..... 750.00
An exceptionally sharp example of this early branch mint Buffalo nickel. The detail on the reverse is particularly sharp. The Buffalo's horn is fully defined and the tail is very distinct. This coin is certainly worthy of the attention of any serious Buffalo nickel collector.

1921-S, MS-65 ..... 1150.00
Another exceptionally sharp branch mint Buffalo nickel. All four digits of the date are fully struck up. All lettering and devices are clear and separated from the rims. Certainly this coin is far superior to nearly all other examples of this date.

1923-S, MS-60 ..... 225.00

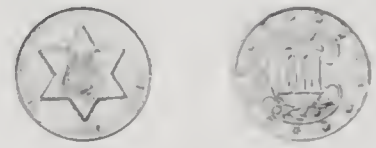
1938-D, D over S, MS-65 ..... 45.00

JEFFERSON NICKELS

1939-D, MS-60 ..... 42.00

THREE CENT SILVER

1851, MS-65 ..... 475.00
An exceptionally sharp example of the Type 1 three cent silver piece.



1859, MS-65 ..... 625.00
Beautiful, light uniform toning. An exceptionally attractive specimen of this type.

1862, 2 over 1, MS-60 ..... 325.00
*MS-65+ 775.00
*An exceptionally lustrous specimen with noticeable die clashing, particularly on the reverse.
1862, MS-65 ..... 475.00

1864, MS-65+ 1495.00
After 1862, three cent silver pieces are very rarely encountered except for proofs. This coin is obviously not a proof but rather a lustrous business strike with magnificent peripheral toning. Exceptionally well struck. This specimen will certainly be one of the highlights of any fine collection.

HALF DIMES

1835, MS-65 ..... 825.00

1838, No Drapery, MS-65 ..... 875.00
A fully struck specimen with light toning around the edges.

1853, With Arrows, MS-65 ..... 875.00

1858, MS-65 ..... 650.00
*MS-65+ 725.00
*Medium to heavy toning. Sharply struck.

1860-O, MS-65 ..... 475.00
The 1860-O was the last half dime struck at the New Orleans Mint. An exceptionally well struck and lustrous coin with light toning.

1861, MS-65+ 450.00
As a denomination, half dimes currently are among the most underrated of all U.S. coins. The mintages are exceptionally low and high quality specimens are very difficult to locate. Despite these facts, prices are still very reasonable for gem quality specimens. This coin is exceptionally well struck with abundant lustre. Very lightly toned.

1870, Proof-65 ..... 395.00

1873, MS-65 ..... 550.00
Last year for this denomination. This coin is very sharply struck with frosted devices and brilliant surfaces. Only a trace of very light toning. An exceptional piece!

We are pleased to bring you our latest quality *Rare Coin List.* Obviously, these catalogues are quite costly to produce. There are many hours spent in writing, photography, art layout, etc. Then there is the expense of printing and postage which have been constantly increasing.

Therefore, to ensure that you receive our future mailings on a regular basis, we hope you will continue to order from us. We constantly strive to offer the highest quality numismatic and philatelic items in the business. And remember, even though it costs us several dollars to prepare, print and mail each of these catalogues, you will never pay a dime for them as long as you remain an active customer. Thank you for your understanding.

DIMES

1829, Medium 10¢, MS-65 ..... 1550.00
The 1829 dime seldom appears in such superior condition. This variety is one of the newest to be discovered, having been unlisted in any catalogue until 1954. This gem is extremely attractive and one of the finest specimens of the date that we have ever seen. An exceptionally strong strike with semi proof-like surfaces. One small planchet drift mark is evident by the fifth obverse star. All in all, an exceptional specimen *nearly as nice* as the MS-65+ we sold almost two years ago for $2600!

1863, MS-65 ..... 1400.00
Circulation strikes of this date are very rare. In fact, they are much rarer than proofs. *Scott's Encyclopedia of U.S. Coins, 1976* notes that non-proofs should be accorded an R-6 rating. The auction records clearly indicate the rarity of MS-65 specimens. This gem is certainly equal to or better than any that have been previously offered. An exceptionally well struck specimen with beautiful toning.

1866, Proof-65 ..... 545.00

1870-S, MS-65 ..... 2500.00
Full frosty mint lustre with just a trace of light golden toning. A bit weakly struck on the head of Liberty as always, but sharper than normal otherwise. The surfaces are outstanding, essentially free of even the most minute abrasions. With only 50,000 struck, the 1870-S has the second lowest mintage of any San Francisco Mint dime. Not surprisingly, it is one of the real rarities of the Seated Liberty Series. Kam Ahwash states that it is "Much rarer than the mintage would suggest" and that the higher priced 1856-S, 1858-S and 1859-S Mint coins as well as the 1872-CC all show up more frequently than the 1870-S. We agree and would be genuinely surprised if as many as fifteen mint state specimens exist out of a total population of probably no more than 100 to 125 pieces.

1875, MS-65 ..... 415.00
A fully brilliant and lustrous specimen which would be ideal for a superior quality type set.
1876, MS-65 ..... 425.00
1876-S, MS-65 ..... 410.00

1879, MS-60+ 675.00
*MS-60+, Proof-like 625.00
*An exceptionally low mintage date with only 14,000 circulation strikes issued. The majority of 1879 dimes which are not proof *do* have proof-like or semi proof-like surfaces. Proof specimens, however, greatly outnumber mint state pieces. An increasingly difficult date to locate.

1880, MS-65 ..... 900.00
Another low mintage dime with only 36,000 circulation strikes reported. Attractive mottled toning. Very scarce.

BARBER DIMES

1892, MS-65 ..... 285.00

1894, MS-65+, Proof-like 795.00
Barber dimes as a whole have been one of the most active series in the last year. The main attention seems aimed at "gem" quality specimens. This 1894 is one of the finest Barber dimes overall that we have ever seen. The surfaces are immaculate and the devices are fully lustrous. An outstanding gem!

1895, Proof-65 ..... 525.00
This is the lowest mintage Philadelphia Barber dime. Of the 690,880 pieces struck, only 880 were proofs. Very sharp with somewhat irregular toning.
1899, MS-65 ..... 285.00
Proof-65+ 399.00

1900-S, MS-60 ..... 165.00
*MS-65 ..... 545.00
*An exceptionally sharp and fully lustrous coin. This coin would be an excellent choice for the collector who is looking for only the highest quality for his Barber dime collection.

1907-O, MS-65 ..... 425.00
Another exceptionally sharp Barber dime.

1911, MS-65 ..... 285.00
*Proof-65 ..... 365.00
*Magnificent light iridescent toning enhances the beauty of this virtually flawless piece. Only 543 proof 1911 dimes were issued, making it one of the scarcest in the series.

1911-D, MS-65 ..... 365.00
1915, MS-60 ..... 125.00

1916, MS-65+ 345.00
An exceptionally well struck specimen so that every minute detail is razor sharp. Beautiful light toning. From a condition standpoint, this is certainly one of the finest Barber dimes you will *ever* encounter.

MERCURY DIMES

1917, MS-65. Full bands 69.00
1919-D, MS-65 ..... 225.00
1923, MS-65 ..... 45.00

1930-S, MS-65 ..... 225.00
1931, MS-65 ..... 99.00
1931-D, MS-65, Full bands 275.00
1935-S, MS-60 ..... 21.00
1936-D, MS-65 ..... 75.00
1936-S, MS-60 ..... 24.00

1939-S, MS-60 ..... 27.00
MS-65 ..... 35.00
1940-D, MS-60 ..... 8.00
1940-S, MS-65 ..... 8.00

TWENTY CENT PIECES

1875-S, AU-55 ..... 355.00
*MS-65 ..... 1495.00
*As the demand for mint state 20¢ pieces continues, the availability decreases. In the last five years, most of the specimens we have seen fall far below the condition of MS-65. The coin we offer is a richly toned gem and is a solid MS-65 with only the slightest weakness at the center which is often typical of these coins. Order now while the price is still reasonable.

1876, MS-65+ 2500.00
A truly superb coin that must be seen to be appreciated. It has partially proof-like surfaces and original lavender and golden brown toning around the periphery, somewhat heavier on the reverse than on the obverse. The mintage for this last year of regular issue was only 15,900. Few specimens could have survived the intervening 102 years as well as this one. It is superior to the Crouch Collection specimen that realized $2600 last year and is surpassed in our experience only by the perfect MS-70 specimen we sold in our 1972 ANA Sale for a breathtaking (honest, it was at that time!) $450.

QUARTERS

1821, MS-60+ 2875.00
At the time this coin was minted, some foreign coins were still in circulation in the United States. It is interesting to note that the mint was using the bulk of its silver bullion to make half dollar coins — especially after the production of silver dollars was halted in 1804. As a result, the number of lower denomination silver coins struck was relatively small until the 1850's. Today, mint state specimens of this date are very scarce and continually sought by collectors. The coin we have is a well struck specimen with attractive toning. It will complement any Bust quarter collection.

1821, Proof-65 ..... 7500.00
United States proof coins struck prior to the 1850's are very rare and are very infrequently available in auctions or by private sale. The exact mintage of this

proof is unknown, but we would estimate that no more than ten specimens survive today. The last time this coin appeared at auction was in 1977 and that was the first time it had been sold in years. Recently, the only other early date proof quarter we have handled outside of a proof set was the original 1827 quarter and that coin commanded a price in excess of $50,000. This 1821 Proof is a gem in every sense of the word and because of its incredible state of preservation and number available, it is equally as rare as the legendary 1827 quarter. This is one of the finest specimens that we have ever seen or handled. An outstanding coin with superb medium toning and full mirrorlike fields which are unusually free of hairlines and handling marks.

1822, MS-60 ..... 2450.00
With a mintage of only 64,080 pieces it is easy to understand why mint state specimens of this date appear very infrequently. The specimen we offer is a true MS-60 and is very pleasing in appearance. Many dealers would certainly grade this coin higher. Very attractive toning and sharp strike, too! A few light handling marks are all that keep this coin out of the gem category. Overall, a beautiful example of this very desirable early type.

1835, MS-60+ 1650.00
An attractive specimen of this type with beautiful green and gold toning. Attractive overall appearance.

1853, Arrows and Rays, MS-65 ..... 2995.00
One of the most popular methods of collecting is by type. When you have a one-year type coin such as this one, you have a coin that is in constant demand. For many years, collectors have eagerly sought high quality specimens of this date. This gem is sure to be the pride of your collection. The full beauty of this piece shines through its virtually defect free surfaces which are amplified by beautiful peripheral toning. A magnificent example of a desirable one-year type coin.

1855-O, MS-65 ..... 4500.00
A very scarce date in all grades but excessively so in mint state. *Scott's Encyclopedia of U.S. Coins, 1976* indicates that this piece should be regarded as R-8, with only two or three known specimens in mint state. In fact, we presently are aware of only one other specimen described as being mint state which was recently offered by a Southern dealer. A circular die break running through the stars and connecting with the arrows and date clearly indicate that this was among the last specimens to be struck from this set of dies. For the collector who wishes both rarity and quality.

1863, Proof-65 ..... 875.00

1864, Proof-65 ..... 875.00

1867, Proof-65 ..... 950.00
Another exceptional Liberty Seated quarter. Beautiful gray and gold toning combine to make this one of the most beautiful proofs in this Rare Coin List. Another low mintage date.

1884, MS-65 ..... 1175.00
This date has been offered to collectors with far less frequency in recent years. Most of these non-proof specimens from the 1880's are considered R-6 (13 to 30 known specimens). This is one of the more underrated quarters with an original mintage of only 8,000 business strikes. This gem is delicately toned with virtually unmarked surfaces. The sharp strike further adds to the pleasing appearance of this magnificent coin.

1889, MS-65+ 1025.00
Here is another gem struck during a year when all non-proof quarters are very scarce. This MS-65+ is among the finest known of the surviving specimens. A warm, golden toning is just beginning to appear. Very competitively priced.

BARBER QUARTERS

1892-O, MS-60 ..... 295.00
1893, MS-65+ 475.00

1900-S, MS-65++ 1450.00
The MS-65++ designation is reserved for those coins which are just short of being absolutely perfect (MS-70) in ever respect. Actually, we don't think you could find any imperfections whatsoever on this coin. Beautiful light toning and a superb strike. Certainly heads and shoulders above the average MS-60 or MS-65 you might see offered elsewhere, yet not priced at much more!

1909-S, MS-65 ..... 625.00
Barber coinage in general has enjoyed tremendous popularity in recent years. This 1909-S is an exceptionally attractive coin with virtually no bagmarks or any other impairments. Very lightly toned, particularly on the obverse.

1911-S, MS-65 ..... 650.00
An attractive low mintage date.

1914-S, MS-65 ..... 1400.00
The mintage of 264,000 and the passing years have combined to make this coin one of the rarest Barber quarters in mint state. This fully lustrous, well struck 1914-S is one of the finest that we have seen. A well above average example of this low mintage date.

1916, MS-65+ 525.00
If you are assembling a type set and demand only the finest possible coins, yet still reasonably priced, we draw your attention to this 1916 quarter. This is a fully lustrous coin with no impairments to speak of. It is very sharply struck in every detail, too. This piece will certainly be one of the first to sell from this Rare Coin List.

STANDING LIBERTY QUARTERS

1916, MS-65 ..... 3450.00
A boldly struck, fully lustrous example of this popular 20th Century rarity. The head is more than half full and the lightly toned surfaces show no friction or bagmarks. A mere 52,000 pieces were minted, the lowest mintage figure of any U.S. coin since 1913. This is one of the nicest specimens we have handled in recent years.

1917, Type I, MS-65 ..... 415.00
1917-D, Type I, MS-60 ..... 275.00
1917, Type II, MS-65 ..... 195.00

1919-D, MS-65+ 775.00
With the exception of some minor weakness about the head, this is an exceptionally well struck Standing Liberty quarter. It is fully lustrous and certainly among the finest available of this elusive date.

1920, MS-65+ 199.00

1923, MS-65, Full head 410.00
Full head Standing Liberty quarters are very rare and always command a large premium.

In our effort to write, photograph, print and deliver this Rare Coin List to you, occasional typographical errors may occur. We apologize for any inconvenience this may cause. Thank you!

1923-S, MS-65+ 775.00
The 1923-S is very scarce in all grades but exceptionally elusive in full mint state. This coin is very sharply struck and fully lustrous. Even Liberty's head has more detail than that of most other specimens.

WASHINGTON QUARTERS

1932, MS-60 ..... 32.00

1932-S, MS-65 ..... 385.00

1807, Draped Bust Type, MS-60 ..... 4200.00
This was the last year for this type and as such, has always been popular with type collectors. The majority of these coins are rather flatly struck and extremely difficult to locate in mint state. We currently have two mint state specimens in stock. Both are exceptionally well struck for the date. One is a bit more toned than the other. You may pick either piece at $4200.

1810, MS-65 ..... 850.00

1827, MS-60+ 575.00

1838, MS-65 ..... 1650.00
This particular design was rather short lived having been issued for only two years. Type collectors fully realize the desirability of this half dollar type which is becoming increasingly difficult to locate in any condition. The specimen we offer is boldly struck with magnificent peripheral toning.

1854-O, MS-65 ..... 1350.00
Limited issue type coins are always in demand. The arrows on the coin around the date indicate that the total weight had been slightly reduced. The arrows were removed in 1856 after the public had become accustomed to the slightly reduced weight coin. The specimen we offer is exceptionally sharp with beautiful original toning.

1859, Proof-65 ..... 895.00
A virtually flawless early proof.

1873, No Arrows, Proof-65 ..... 795.00

1873, With Arrows, MS-65 ..... 1950.00
This two-year type coin was created when the weight was changed once more. Arrows were again added around the date to show that the weight of the silver coins was different from previous years. In 1875, these arrows were removed. The specimen we offer is an unusually high quality example of the first year that the new weight was used. Very light toning is apparent on this otherwise brilliant coin. This coin certainly qualifies as a boldly struck gem.

1878-CC, MS-65 ..... 3250.00
With a mere 62,000 struck, this is one of the most highly sought dates of the entire series. Mint state specimens rate a low R-7 meaning only eight to twelve specimens are known. Those which grade MS-65 are even fewer in number! The deep, rich toning of this sharply struck gem is one of its highlights. This 1878-CC is one of the finest available and is extremely desirable from all aspects.

1885, MS-65 ..... 1350.00
Mint state half dollars of the 1880's are rarer today than the proof specimens. Of the 5,200 business strikes issued of this date, only a handful can be accounted for today. The example we offer is one of the most desirable of the extant coins with its lovely,

dark peripheral toning and remarkably flawless surfaces. This is an extremely high quality specimen of a rarely available date.

1888, MS-65+ 1375.00
As has been previously mentioned, all half dollars of the 1880's are rarer in mint state than in proof. Of the original 12,000 business strikes, relatively few can be accounted for today. This fully lustrous coin is very possibly the finest existing specimen. Here is a truly superb rarity for a reasonable price.

BARBER HALF DOLLARS

1892, MS-65 ..... 795.00
A nicely toned specimen of this first year of issue.
1894, Proof-65+ 1050.00
1899, Proof-65 ..... 775.00

1909-O, MS-65 ..... 1550.00
The 1909-O is usually encountered weakly struck. This specimen, however, is much sharper than most. The real beauty of this coin is found in its very deep, rich peripheral toning.

1910, MS-65+ 1225.00
This date is deservedly recognized as one of the most elusive Barber half dollars in mint state. There are many "sliders" on the market which are actually almost uncirculated pieces, but are misrepresented as being mint state. This coin, however, is fully struck and very lustrous. It would indeed be difficult to imagine a 1910 any finer than this one. Even so, our asking price for this rarity is only slightly higher than the price of even the most common date Barber half dollar in this grade.

1911-D, MS-65 ..... 1065.00
Like so many of the Barber coins, this is another half dollar that is extremely scarce in mint state. The total mintage of 695,000 pieces makes this among the lowest mintage half dollars of the 20th Century. Rarely does a specimen as fine as this one appear before the collecting public. This is a brilliant, lustrous coin with only the slightest traces of toning. With the great demand for high quality Barber half dollars, this piece is sure to attract great attention.

WALKING LIBERTY HALF DOLLARS

1916-D, MS-60+ 395.00
An attractive specimen with abundant mint lustre.
1917, MS-60 ..... 105.00
MS-60+ 115.00

1917-D, Mintmark On Obverse, MS-65 ..... 795.00
A low mintage date with only 765,400 struck. This is a brilliant and sharply struck specimen.
1918-S, AU-55 ..... 105.00

1919, MS-65 ..... 1500.00
With few exceptions, early Walking Liberty half dollars are becoming very rare in MS-65. The 1919 has a low mintage of only 962,000. This is a very well struck piece with light toning. As time passes, it is obvious that early Walking Liberty half dollars will become even rarer and most likely higher priced, especially in mint state!

1920-S, MS-65 ..... 2450.00
Easily, the 1920-S is one of the key dates of this series in mint state. Most of the mint state specimens offered are very weakly struck. This coin is certainly an exception! Delicate toning fully enhances its beautiful surfaces. A premium coin in every respect.

SILVER DOLLARS

1848, Proof-60+ 5500.00
As a date, the 1848 is the rarest date of the 1840's. Only 15,000 were minted and the resulting rarity of high grade business strikes has imparted a premium value to the proofs of this date. This is the only 1848 proof dollar on the market in many years and is the same coin that we offered (and quickly sold) in Rare Coin List Number 12 over two years ago. Attractive medium lilac and iridescent toning and surfaces that are far above average for a proof dollar from this era. An important opportunity to obtain a great rarity in its natural, uncleaned state.

1853, Proof-65 ..... 8500.00
This is the second rarest Liberty Seated dollar in proof. Only the unobtainable 1849 is more difficult to acquire. None of these coins were actually struck in 1853, but were produced some years later to satisfy the demands of collectors from that era. Of the reported twelve specimens that were struck at that time (1858-1860), we estimate that no more than seven to nine pieces exist today. This is a stunning gem with superb surfaces and delicate toning. It is fully equal to the Garrett specimen that brought $8500 in a much weaker market. Certainly, this is one of the treasures in American Numismatics. Ex-Fairfield Collection.

1854, MS-65 ..... 3600.00
A rare date with a mintage of only 33,140. This is a boldly struck specimen with lovely gray and gold toning. Virtually free of the usually found bagmarks, too. A superior example of this rare and desirable date.

1860, Proof-65 ..... 1650.00
Although 1,330 proofs were reportedly struck, it is widely felt that many were actually never released to collectors but, instead were melted. Choice and gem proof Seated dollars are very elusive. The vast majority are rather heavily hairlined or otherwise impaired. Although this coin is just a bit weakly struck on a few of the obverse stars, it is otherwise perfect. There are no visible hairlines. A truly high quality Seated Liberty dollar.

1862, MS-65 ..... 3200.00
With only 12,090 business strikes reported, this date has the distinction of having the lowest silver dollar mintage during the Civil War period. It is most unusual to find a mint state 1862 dollar since proofs (most of them impaired) far outnumber them in availability. We would estimate that fewer than 40 specimens of this date exist in mint state. This is a true MS-65 with full frosty mint lustre and choice unmarked fields. There are numerous parallel die striations in the field, but these are the result of die polishing and are not unusual nor are they a defect. An extremely attractive and desirable gem.

1900-S, MS-60 ..... 155.00
MS-65 ..... 240.00

1901, MS-65+ 7500.00
In our experience, this date is the most difficult to obtain in the entire Morgan dollar series in gem mint state. (We have handled more choice examples of the 1884-S, 1889-CC, 1892-S and even the 1893-S than we have of this grossly underrated date.) Additionally, most specimens have little or no lustre and a rather weak strike. But this remarkable coin is boldly struck and has full, radiant mint lustre with just a trace of natural violet brown toning around the edges. The surfaces are essentially free of bagmarks and, overall, this is the choicest 1901 we have handled in our many years of dealing in the finest quality Morgan dollars. Our price will only seem high to someone who has not spent years looking in vain for a 1901 Morgan dollar as truly superb as this one. Call NOW or it's gone!

1855, MS-60 . . . . . 1950.00
An exceptionally popular type coin which has been in constant demand for many years. Fully lustrous and generally well struck, although exhibiting the characteristic weakness in 8 of the date. (We cannot recall *ever* seeing an 1855 gold dollar with a bold date.) Very popular as a type coin since this design was issued for only three years. It was changed in 1856 to a larger, lower relief head of Liberty that did not wear so quickly. Because gem quality coins bring $4000 to $5000 when available, this lovely strictly uncirculated example is a particularly good value.

Don't wait until "tomorrow" to place your order. Many of the coins listed are one of a kind and those who order first are most likely to receive the coins they want.

1859, MS-60 . . . . . 450.00
Despite a mintage of 168,244, the 1859 gold dollar is actually much rarer than the very popular, low mintage dates of the 1880's. It is especially elusive in strictly mint state. Although a bit weakly struck in a few places, this coin is quite attractive with uniform color and lustre. Considering its true scarcity in mint state, we feel this is certainly reasonably priced at $450.

1860, MS-65 . . . . . 795.00
The 1860 gold dollar is a very scarce and underrated date, even more so than the 1859. Of the 36,668 struck, relatively few can be accounted for today. This is an exceptionally sharp specimen with beautiful lustre and virtually flawless surfaces. This is the finest 1860 gold dollar we have had in stock in several years.

1862, MS-65+ 995.00
The most common Type III gold dollar. Although common as a date, this specimen is certainly superior to the majority of mint state specimens offered. This would make an excellent choice for a high quality United States Gold Type Set. Extremely lustrous and sharply struck!

1863, MS-60+ 6500.00
This is the rarest gold dollar in uncirculated condition after 1861, more rare than the low mintage 1865, the popular 1870-S, and even the ultra low mintage 1875. Although choice gold dollars have long been a specialty of ours, this is the first choice uncirculated 1863 we have handled since 1975. (It is important to note that during this period, no choice non-proof specimens have appeared at auction either or we would have bought them!) This lovely coin is well struck with attractive golden toning and full frosty mint lustre.

NOTE: We sold the last uncirculated 1863 we had for $2500 and had to pay twice that much to buy this similar specimen, just three years later. The next time — who knows what one will cost?

Be sure to check for additional rare coins in the Last Minute Additions of this Rare Coin List.

1865, MS-65+ 4500.00
The gold dollar specialist knows that the 1865 is one of the rarest Philadelphia Mint coins of the series. In our experience, only the 1863 (also offered in this list) and the 1875 are more rare in uncirculated condition. This 1865 is a joy to behold and is essentially as perfect as the day it left the dies. It is sharply struck, fully lustrous with lovely reddish and gold toning, and the surfaces are flawless. Although a small number exist in mint state (impossible to say exactly how many but certainly less than 20 to 25), most are not choice at all, just MS-60 coins at best. The number of superb gems is no greater than four or five and therefore, with much commoner gem Type II gold dollars bringing $4500 to $5000 and more, we feel that this 1865, *one of the finest known* of a very rare date, is an exceptional investment and one of the best buys in this entire list.

1873, MS-60+ 550.00
MS-65, Proof-like 795.00

1874, MS-65 . . . . . 795.00
An exceptionally sharp type coin.

1880, MS-65+ 1295.00
Always a popular date with a low mintage of only 1,636 pieces. The reverse lettering and wreath are sharply recut on this gem. Even though 1880 gold dollars are not as rare in mint state as the low mintage might indicate, few equal the superb quality of this one.

1883, MS-65 . . . . . 895.00

1885, Proof-65 . . . . . 1575.00
Although a fairly common date in proof, one must be careful since many offered as "proofs" are actually

"first strike" uncirculated coins. The proofs, however, can be easily distinguished by their "orange-peel" appearance. A brilliant gem with superb mirror-like fields and frosted devices.

1887, Proof-65 ..... 1575.00
Here is another date where first strike uncirculated coins are often mistaken for proofs. Certainly there are few gold dollars that would surpass this one for beauty and quality. This lustrous gem is complete with sharply defined devices and immaculate surfaces.

1888, MS-65 ..... 850.00
A highly attractive, fully struck, lustrous specimen which is virtually free of even the most minute surface marks.

QUARTER EAGLES ($2.50 Gold)

1836, MS-60 ..... 1495.00
In recent years, mint state Classic Head quarter eagles have become very elusive. This mint state specimen has some of the typical weakness in Liberty's hair and some of the higher points on the reverse eagle. Otherwise, it is a brilliant specimen with an absolute minimum number of surface marks. A specimen only marginally finer than this one would certainly cost much more.

1838, MS-60+ 1950.00
Strictly uncirculated specimens of this date are very rare. As the photo clearly indicates, this is a sharply struck coin with virtually unimpaired surfaces and rims. It would indeed be difficult to locate a specimen superior to this one.

1843-O, Large Date. MS-60+ 1995.00
This date is an unappreciated rarity. Out of the 364,002 mintage, only 76,000 were the large date variety. Quoting from our standard reference work on quarter eagles:

> "Much more rare than the small date variety in all grades and particularly so in choice condition. In the 226 (auction) catalogues used for this book, there were only six appearances of the 1843-O large date in AU or Unc compared to the 32 appearances of the small date in the same grade".

The 1843-O large date offered here is a very choice specimen, sharply struck except for the typical weakness on the eagle's left leg and possessing deep, original toning beneath which are lustrous, unmarked surfaces.

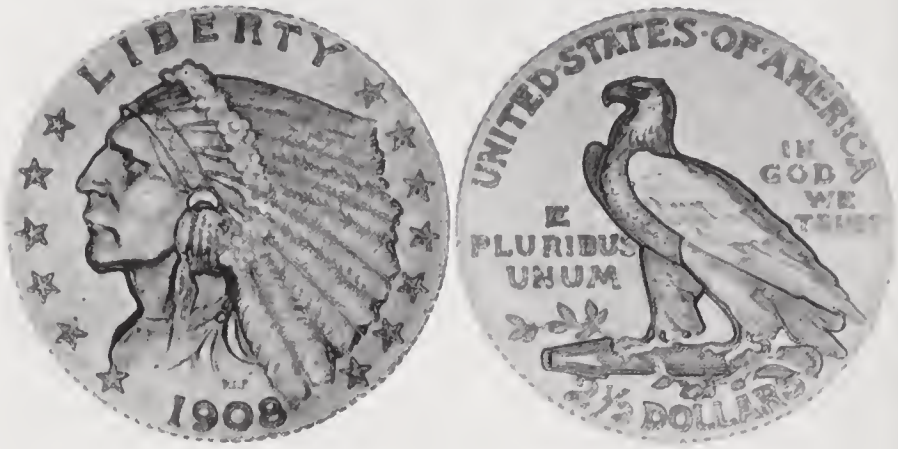
INDIAN HEAD QUARTER EAGLES



1908, Proof-65+ 3600.00
Popular first year of type. Although this is the most common proof quarter eagle from this series (mintage 236), it is most uncommon to find one in such pristine condition. The matte surfaces are immaculate! This is very important since impairments on matte proofs are very obvious. An *extremely high quality*, delicately toned gem that would be hard to improve upon.

1910, Proof-65+ 3600.00
Although 682 proofs were reported, this date is actually rarer than the 1908, 1911, 1912, or 1913. As a result, it can be concluded that this mintage figure is either in error or that much of the issue was melted. The 1910 proof gold coins have a satin finish, which is much more brilliant than the sandblast or matte finishes of other years in this period. Another exceptional gem which is free of even the most minute impairments!

THREE DOLLAR GOLD PIECES

1854, EF-40 ..... 450.00

1868, MS-65 ..... 6250.00
A remarkably beautiful coin with rich golden toning, bold strike, and superb surfaces. One of the many low mintage $3 gold pieces with just 4,875 struck. Unlike many of the lower mintage dates of the 1880's, most known 1868's are circulated, usually in the VF to EF range. Uncirculated specimens are rare and gem (65 or better) coins are extremely rare. This is one of the four or five finest examples we have seen. It is not surpassed in overall quality by any 1868 known to us.

1878, MS-65 ..... 2175.00
By $3 gold piece standards, this is a fairly common date. It is anything but common in such choice condition, however. Very boldly struck with beautiful and lustrous surfaces.

1879, MS-65 ..... 3000.00

1880, MS-65 ..... 3400.00
Only 1,000 1880 $3 gold pieces were issued for circulation. Of that number, many have certainly been lost through the years, and at most 75-100 pieces are known today, if that many. Here is a beautiful, fully struck gem which is realistically priced. Certainly worthy of inclusion in any fine $3 gold collection.

1884, MS-65+ 6500.00
Superb! Magnificent! Worthy of any superlative one might care to bestow on it. To make the point straight away, this is the finest 1884 we have ever seen or handled and, in fact, it is one of the finest $3 gold pieces of *any date* which we have seen. The strike is as sharp as any proof's, the surfaces are flawless, and the rich golden toning is simply gorgeous. An 1884 in this condition is a great rarity, far more rare than a proof, for instance, and significantly rarer than such dates as 1879, 1880, 1882, 1887, 1888, or 1889, not to mention the "common dates" of the series. A coin for the perfectionist type collector or the date collector who wants the finest specimen imaginable of this ultra low mintage date. (1,106 struck.)

1887, Proof-65 ..... 5600.00
An impressive gem with beautiful frosted devices contrasting with flawless mirror fields. Proof mintage of only 160.

1888, Proof-65 ..... 5600.00
With a mintage of 291 proofs, this is the most "common" proof $3 gold piece. Even so, few pieces in existence today are of such high quality. Beautiful, orange-peel surfaces and mirrorlike fields! An excellent choice for the advanced $3 gold collector or investor.

HALF EAGLES ($5 Gold)

1807, Bust Right, AU-55 ..... 2250.00
A very rare half eagle in high grade. Most 1807's of this type which appear for sale are only extra fine or less. This boldly struck specimen is just shy of mint state. An interesting die break, sometimes referred to as a "cud" joins the letter E in LIBERTY and the edge. (It is not considered an impairment in any way.) This sharply struck and exceptionally well centered coin would be one of the highlights of any half eagle collection.

1844, AU-50 ..... 215.00

1854-D, MS-65 ..... 6500.00
Mint state 1854-D half eagles are excessively rare and would definitely merit a low R-7 rating (8 to 12 known). In *MS-65* however, *it is even rarer!* This is probably the *finest known* specimen of this date. It is definitely the finest 1854-D we have ever handled! Very sharply struck with the usual weakness of the denticles. Beautiful rich, reddish gold toning and virtually flawless surfaces which are free of handling marks. An impressive coin in every respect.

1864, Proof-65+ 11,000.00
Although 50 proofs were reportedly struck in 1864, it is doubtful that more than 10 or 12 survive today. Many of these are obviously impaired with hairlines. After extensive research, we have found only 11 auction appearances of proof 1864 half eagles since 1921. Many of these may be the same coin, too. To the best of our knowledge, this superb gem is unsurpassed by any other 1864 proof half eagle. Fantastic rich gold toning and superb surfaces! From the famous Garrett Collection which was originally assembled in the early 1880's. Here is a possibly once in a lifetime opportunity to acquire this date in such a superb state of preservation.

1904, Proof-65 ..... 3250.00
We feel that all proof gold eoins are underprieed in today's aetive rare coin market. The mintages for most speeimens are miniseule when eompared to the number of business strikes issued. This date has a proof mintage of only 136. The vast majority of surviving speeimens are impaired by nieks, scratehes or hairlines. This speeimen, however, is a fully brilliant gem with no impairments and we are being very conservative when we grade it Proof-65. This gem would be a worthwhile addition to any high quality gold eoin eollection.

EAGLES ($10 Gold)

1847-O, MS-60+ 3950.00
This is one of the few "No Motto" gold eagles whieh occasionally appears in mint state. Even so, it is still rather diffieult to loeate in any quantity. There are, however, many almost uneireulated speeimens on the market. Typieal of New Orleans eoins from this period, there is some slight striking weakness on the curls of Liberty and on the eagle's feathers. The surfaees, however, are exceptionally lustrous and free of serious handling marks.

Be sure to check for additional rare coins in the Last Minute Additions of this Rare Coin List.

1885, MS-60+ 425.00
An above average speeimen of this slightly seareer date.

1888, Proof-65 ..... 6000.00
Deep yellow-gold eolor highlighted by a fully frosted head and eagle and brilliant mirror surfaces. Only 75 proofs were struek and, because of the high attrition rate of large denominations U.S. proof gold eoins, no more than eight to ten eomparable 1888 proofs are still in existenee. Along with the Ullmer and Garrett speeimens, this is one of only three proof 1888 eagles on the market in the last 15 years! An exeellent value.

1889-S, MS-60+ 350.00

1890-CC, MS-60+ 1195.00
Carson City gold eoins, in general, are rather difficult to obtain in true mint state. Low mintages are the rule rather than the exception. This eagle with a mintage of 17,500 is one of the more desirable Carson City eagles. This rather strongly struek MS-60+ is eertainly finer than most 1890-CC eagles which have been sold in the last few deeades.

INDIAN HEAD EAGLES

1907, Wire Edge, Periods, MS-65 ..... 8500.00
Although this coin is collected as part of the regular Indian Head eagle series, it is actually a pattern, Judd 1774. Only 500 were struck. This particular design was never implemented due to the great difficulty in stacking the coins. This is an outstanding specimen with fully lustrous surfaces and no impairments. Here is a rare opportunity to acquire this exceptionally choice gem!

In our effort to write, photograph, print and deliver this Rare Coin List to you, occasional typographical errors may occur. We apologize for any inconvenience this may cause. Thank you!

1907, No Motto, No Periods, MS-65 ..... 1100.00
This is the design that was ultimately used for circulation strike eagles in 1907. The following year, the motto IN GOD WE TRUST was added as required by law. President Theodore Roosevelt, however, did not want the motto on the coins since he considered it blasphemous to use the Diety's name on coinage. This is a fully lustrous specimen which is nearly as nice as the MS-65+ we sold from our Rare Coin List 18 for nearly twice the price!

1909-S, MS-65 ..... 4250.00
One of the finest of a small group of this rare date recently uncovered in Europe. Prior to the discovery of this group of choice pieces, the 1909-S was virtually unknown in gem uncirculated condition and appearances at auction and private sales were rare indeed. Compared to the number of collectors desiring this date, the quantity discovered was infinitesimal and has already quickly disappeared into advanced collections. This beautiful specimen has full mint lustre, essentially mark free surfaces and beautiful reddish golden toning.

1911-S, MS-65 ..... 9750.00
As was the case with the 1909-S, a small group of uncirculated 1911-S tens was recently discovered in Europe. The quantity was even less than of the 1909-S and, despite the seemingly high price at which they were offered, they quickly sold. This is really not surprising since the 1911-S has long been known to be a great rarity in mint state. Until the appearance of

this small group, and our subsequent purchase of this beautiful gem coin, we handled only a few Unc-60 coins, none even close in quality to this piece. It is boldly struck and has beautiful rich toning and excellent surfaces. The reverse, in fact, is virtually perfect. With only 51,000 pieces struck, the third lowest mintage of the series, the 1911-S is obviously one of the key dates of the popular Indian Head $10 series. Here is your opportunity to purchase a remarkable specimen, unequivocally one of the finest known.

1915-S, MS-60+ 2100.00
Beautiful toning and above average surfaces. A lovely example of this very scarce, low mintage date (only 59,000 struck). Only a few mint state examples of this date are offered in a year's time and this particular coin is one of the finest we've had for sale in a long while.

1916-S, MS-60 . . . . . 1750.00
Another very scarce date in mint state. This is probably the result of the massive gold coin meltings conducted in the 1930's. Although there are the usual handling marks found on this date, this is still one of the few opportunities available where you may acquire this elusive date in mint state.

1926, MS-60+ 375.00
MS-65 . . . . . 475.00

1930-S, MS-65 . . . . . 11,000.00
A magnificent coin, very sharply struck with full original mint lustre and excellent surfaces. The reverse is so choice that it is very close to MS-70. Without doubt, this is one of the most popular gold rarities of the 20th Century. The mintage is low (96,000), but since most of this small number were melted and never released, the total quantity of 1930-S eagles known is probably no more than 100 pieces, all of which are uncirculated. Few are more choice than this gem, however, and it is deserving of a place in the finest collection. With top quality rare gold coins once again on the move price wise, it should prove to be an excellent investment as well as a source of great pride to its new owner.

MS-65 . . . . . 475.00

DOUBLE EAGLES ($20 Gold)

1852, MS-65+ 4950.00
This is one of the nicest Type I double eagles we've handled in a while from the standpoint of quality. It is well struck, has full original mint lustre with just a trace of natural toning, and has surfaces which are amazingly free of marks and abrasions. Although the 1852 is quite common as a date and heavily bagmarked mint state specimens are occasionally available, gem coins of this quality are very rare. We see or handle no more than a few such coins a year of all early dates combined, and no dealer in America buys and sells more top quality rare gold coins than Paramount.

1873, MS-60 . . . . . 495.00

1873-CC, AU-55 . . . . . 3000.00
All early Carson City coinage struck during the first few years of that mint's operation is most difficult to locate in mint state. Coins in conditions even approaching mint state are very seldom seen. This coin is practically free of the characteristic bagmarks and severe edge nicks which are so frequently seen on "CC" mint gold coins. This double eagle was one of only 22,410 originally minted. It certainly ranks among the finest known with its sharp strike and semi proof-like fields.

1883-S, MS-60+, Proof-like 495.00
An attractive and well struck specimen of this fairly scarce date. There are the usual number of minor bagmarks in the semi proof-like fields. Quite attractive!

1889, MS-60 ..... 725.00
*Proof-65 ..... 12,500.00
*Of the 41 proofs struck, we would estimate that no more than one dozen can be accounted for today. It is very interesting and important to note that the 1889 proof double eagle is actually much rarer than any of the highly regarded proofs from 1881 through 1887. This is the first specimen of this date to be offered in many years. There are no hairlines or distracting marks on the surfaces of this incredible gem. An underrated rarity!

1894, MS-65+ 625.00
The strike of this gem is exceptionally sharp in every respect, but the most amazing aspect of the beauty of this coin is its incredible rich lustre. It would be difficult to imagine a double eagle with richer, more radiant lustre.

SAINT-GAUDENS DOUBLE EAGLES

1907, Roman Numerals, High Relief, Wire Rim, MS-65+ 7500.00
After several trials to establish a new basic design for the double eagle, the Standing Liberty motif by Augustus Saint-Gaudens was approved and issued for circulation. At first, the coins bore a Roman Numeral date rather than an Arabic date. They also had a high relief which caused considerable difficulty in striking at the mint, plus the fact the coins would not stack properly. Only 11,250 "high relief" examples were struck before the designs were modified to a lower, flatter relief. This incredible gem exhibits no signs of rubbing or other impairments as do so many of the high relief double eagles available today. Always popular and in demand.

Paramount Wants to Buy Your Rare Coins

As the largest dealer of rare coins in this country, we constantly need to buy a variety of coins. If you have been considering the sale of your collection, please call Karl or Rick in our Rare Coin Department. They will be happy to discuss the outright purchase of your collection. You will be pleased to know that we pay the highest prices in the business for superb quality single coins or entire collections worth millions of dollars!

1926-S, MS-65+ 2400.00

Like the 1852 offered earlier in this list, the 1926-S is remarkable because of its complete lack of surface abrasion. Even a 1924 or 1927 would be scarce in this grade and command a substantial premium. It has a tremendous strike and radiant mint lustre, and is one of the finest Saint-Gaudens pieces of any date that we have handled.

NOTE: Until the mid 50's the 1926-S was almost unknown and was generally regarded, along with the 1924-S and 1926-D, as one of the "King Pins" of the series, equal in rarity to the now legendary 1927-D. At that time, however, quantities of these three dates and other formerly "rare" dates were discovered in Europe. But no 1927-D's were discovered and it has retained its ultra-rare status (six or seven known) to this day.

1927, MS-65 . . . . . 425.00

1928, MS-65 . . . . . 425.00

1929, MS-65 . . . . . 6750.00

It seems incredible but of the 1.8 *million* 1929 double eagles minted, no more than 100 or so can be accounted for today. This great rarity is, no doubt, the result of the massive gold coin melting conducted after 1933. It is a known fact that many of the gold coins struck during the 1920's and early 1930's were never released into circulation. As a result, they were among the first melted when the country went off the gold standard. Fortunately, a few 1929's survived for collectors. This is an exceptionally attractive specimen with fully lustrous surfaces and a very minimum number of surface abrasions.

"The set of Liberty Nickels that I recently purchased is beautiful. Paramount's grading was very accurate as usual. The coins that I have purchased from Paramount have always been graded correctly. Also, the friendly service from Don Slouffman and your staff makes Paramount the only place to handle my coin business."

UNITED STATES COMMEMORATIVE COINS

— Low Mintages —Beauty
— Impressive Past Investment History

United States Commemortive coins include some of the most beautiful and artistic designs of all United States coinage. Their beauty and boldness of relief are admired by collectors throughout the world. Commemorative coins also reflect the history of the United States.

While many collectors are attracted to these coins because of their historic appeal, commemoratives have also become popular because most issues have a very low mintage. Unfortunately, many of these coins were initially obtained by non-collectors and as a result, a great number exhibit signs of mishandling. Sometimes, these "sliders", or about uncirculated pieces, are sold by some dealers to the unsuspecting collector or investor as being "mint state" or uncirculated. Paramount's Mint State commemoratives, however are the *finest available* and we guarantee it!

In recent months there has been a growing interest in commemoratives on several fronts. Numismatists have been petitioning the Treasury Department to resume the issuance of commemorative coinage. A leading numismatic weekly has even taken a strong editorial stand in favor of new commemorative coinage. Collectors like these coins because of their limited availability. Mintages are often less than 10,000! It is easy to see how these coins, with their beauty, limited mintages and growing demand, have greatly increased in value over the years.

For many years Paramount has been a leading dealer in these beautiful coins. We maintain one of the world's largest commemorative inventories. If you are interested in either starting, or adding to your commemorative collection, our rare coin staff is ready to help you. As usual, we guarantee conservative grading and most importantly — your complete satisfaction!

The Unique George III 1808 Penny

1808, Unc-65. Unique — the only known specimen of this date. This beautiful coin traces its pedigree to the estate of Matthew Boulton, Esq., proprietor of the famous Soho Mint. Thousands of pennies of the same design were struck in 1806 and 1807, but for some unknown reason only one penny was minted bearing the 1808 date. This coin is pictured and listed as Peck #1346 in *English Copper, Tin, and Bronze Coins in the British Museum 1558-1958* by C. Wilson Peck, 1960. A very rare opportunity for the advanced collector or investor to add a truly famous world rarity to his collection. This coin is in choice mint state condition, with very attractive light olive toning and considerable mint lustre 30,000.00

THE VERY RARE 1872-H NEWFOUNDLAND MINT SET

Superb GEM Unc-65+. A remarkable 5-piece set consisting of 1¢, 5¢, 10¢, 20¢, and 50¢ coins struck in 1872 at the Heaton Mint in Birmingham, England. In our opinion, this is an original presentation mint set, specially struck for some unknown reason and kept intact for more than 100 years. All the silver coins have identical gray, blue, and iridescent toning. Each coin is a superb GEM, with perfect surfaces, bold strike, sharp squared rim, and the overall look of a specimen proof coin. The blazing red 1¢ piece has partial mirror surfaces and is also decidedly different in overall appearance from a normal business strike. We know of no comparable set ever having been offered for sale. An assembled set of business strikes (which these most definitely are not) in lesser condition brought $5200 at auction more than a year ago. This set, possibly unique, as an original presentation set, is one of the finest buys in this entire list. 6500.00

Don't wait until "tomorrow" to place your order. Many of the coins listed are one of a kind and those who order first are most likely to receive the coins they want. Please list alternate choices if possible.

THE EXTREMELY RARE 1882-H NEWFOUNDLAND SILVER SPECIMEN SET

Superb Gem Proof-65+. This set, like the 1872-H, is also an original presentation set struck in proof at the Heaton Mint in Birmingham, England. The four coins, 5¢, 10¢, 20¢, and 50¢, are all absolutely mind-boggling in their quality and overall beauty. The toning on each piece is remarkably similar, as one would expect of an original proof set, featuring warm tones of violet, brown, lavender, and gold. The number of proofs known of each denomination is very small, only 6 or 7 of the three small denominations and no more than 3 or 4 of the 50¢ piece. We know of no other complete, original set, except the one permanently impounded in the Birmingham Museum. This set, too, belongs in a museum or in the collection of the ultimate perfectionist 8500.00

Note: The values of Canadian and Newfoundland coins still have a long way to go. Almost without exception, the silver coins of Canada and Newfoundland are far more rare than their United States counterparts of the same period. A United States set of comparable rarity and quality to either of the 1872-H and 1882-H Sets offered here would bring many times our asking prices for these sets. In truth, neither of these two sets could be duplicated at any price.

Expert cataloguing and photography are only two reasons why Paramount's auctions are so popular. The main reason is the high prices *your* coins will bring. Our experience in the rare coin auction business is well known. Over the years, we've sold such rarities as a 1913 Liberty Head nickel, 1894-S dime, several mint state 1893-S dollars, an 1838-O half dollar, an 1828 half eagle (in MS-65+!), a mint state 1916-C Canadian Sovereign, and many more equally exciting coins. If you would like to sell your rare coins in the company of other equally rare and high quality specimens, call Karl Hirtzinger, manager of our Rare Coin Auction Department. We think you'll like the friendly way we do business, plus our *low, low* commission rates!

A COMPLETE 97-PIECE MORGAN DOLLAR SET FOR AN AVERAGE COST OF ONLY $23.71 PER COIN!

That's right! For $2300 ($23.71 per coin) you may own a complete set of Morgan Dollars, *in albums,* in Very Good to Mint State! Included are all dates and mints (less the excessively rare 1895-P and varieties) from 1878 to 1921. Think about it! You'll be getting the very rare 1893-S which alone sells for over $300 in Very Good. Other rare dates like the 1889-CC, 1894, 1895-O, 1895-S, 1899, 1903-O, all the "CC" dates, etc., are also included.

We have recently seen *minimum* quality sets (Good-Very Good) trading for $1500 on the wholesale market. Our sets are far superior with most coins grading Fine, VF, EF and *even Mint State! None will grade less than Very Good.*

The Morgan Dollar is *the most popularly collected series of U.S. coins.* This popularity is responsible for the dramatic increase in value these coins have seen in the last few years. While no one can predict the future, activity at recent coin shows indicates the Morgan Dollar's popularity is continuing at an all-time high. And of the hundreds of thousands of silver dollar collectors, only a small number will ever be able to claim that they own the 97-piece set.

Remember:

- **The average cost per coin is $23.71 (Common date circs sell for $6.00 or more!)**
- **All 97 coins are in albums!**
- **These are not minimum grade sets where most of the coins are only Good to Very Good. The set will average VF!**

Your satisfaction is guaranteed! Call our Rare Coin Department *Collect to reserve your set!*

GOLD

AN ITEM OF LASTING BEAUTY

Gold — the ultimate acquisition. There is not a collector alive who would not like to see brilliant, glistening gold in their collection.

We have carefully assembled two different United States gold type sets, each containing a $2½, $5, $10, and $20 gold coin in brilliant uncirculated (Mint State 60 or better) condition. The first set will feature coins with the classic Liberty Head design. This design was used from the late 1830's into the twentieth century. The second set includes the popular $2½ and $5 gold coins with the incuse Indian Head design. (They were the only coins issued by the United States whose design was actually *below* the surface of the coin.) Also included is the $10 Indian Head gold coin and the magnificent $20 Saint-Gaudens. The Saint-Gaudens is often referred to as the most beautiful coin ever issued by the United States, and one of the most beautiful in the entire world.

Either set would make a handsome addition to any collection — an addition certain to bring enjoyment and pleasure for many years to come. Gold. You've heard so much about it. Now, it can be yours.

Four-Piece Gold Type Set, Liberty Head Design, Mint State 60 or Better, Mounted in Custom Holder $975.00

Four-Piece Gold Type Set, Indian Head and Saint-Gaudens Design, Mint State 60 or Better, Mounted in Custom Holder $1195.00

What Every Smart Numismatist Should Own

How well can you tell the difference between a counterfeit and genuine coin? Sometimes even the experts have difficulty! That is why you should arm yourself with the *Model 311 Counterfeit Detection Kit.*

With this Counterfeit Detection Kit, you can perform two very important tests on a coin whose genuineness is in doubt. The first is **weighing** the coin, using the *quality* Ohaus scale contained in this kit. By comparing your findings with the coin's official weight, you will have a very good idea as to whether or not the coin is suspect.

The second test you will be able to perform is **specific gravity**. By knowing the specific gravity, the coin's metallic composition can be determined. This is very important because many counterfeit coins are not composed of the same alloy as genuine coins.

Each *Model 311 Specific Gravity Scale and Counterfeit Kit* by Ohaus will consist of a scale, set of weights, beaker, thermometer, caliper, and the Ohaus Specific Gravity Handbook. This entire kit is available for only $99 — a small price when you consider the alternative.

The *Counterfeit Detection Kit* is a valuable tool. If you are a serious numismatist, you owe it to yourself to have one!

Ohaus Model 311 Counterfeit Detection Kit, Complete and Postpaid $99.00

Only One Set Available!

It has been nearly a full year since we have had all 13 of the Carson City Morgan Dollars in stock at the same time! The super key to this rare set is the extremely rare 1889-CC. The evasiveness of this date in MS-65 is evident by its absence from most dealers' ads. At the Central States Convention last spring we heard of a specimen described as "MS-65" wholesaling for $7500. Later, at the convention, we heard that same coin sold for $8500! The price might as well have been $10,000 (or more) because for the last *YEAR* dealers and collectors alike have been looking for MS-65 specimens of this date. Very few pieces have actually traded hands. The price could go higher for this and other dates as the unprecedented demand for quality dollars continues.

This set is beautifully matched. Each piece was carefully and painstakingly selected for quality by its original owner. It is our opinion that a set of equal quality could not quickly or easily be assembled no matter how much money you had to spend. Remember, this set includes all 13 dates plus an additional coin to show the reverse. All 14 coins are mounted in a deluxe, hard plastic holder, appropriately shaped like the state of Nevada.

For more information on this beautifully matched set, call our Rare Coin Department collect at 513 — 836-8641 between 8 and 5 EDT, Monday through Friday.

DIRECTLY FROM THE MOSCOW BANK FOR FOREIGN TRADE

1947 Bank and Treasury Notes

Paramount recently acquired a small number of *complete sets* of beautiful 1947 State Bank Notes and 1947 State Treasury Notes directly from the Bank For Foreign Trade in Moscow. These notes lay undisturbed in the Bank's vaults for over twenty years, and every single note is in perfect crisp uncirculated (new) condition, the condition most highly prized by collectors of rare currency.

Legal Tender Until 1961

These superbly engraved, richly colored notes served as actual circulating legal tender in the Soviet Union between 1947 and 1961. All have long since disappeared from circulation and complete sets are very difficult to locate today in choice condition.

Engravings and Watermarks

The set of State Bank Notes consists of four multicolored notes in denominations of 10, 25, 50 and 100 roubles. The notes vary in size with the 100 rouble note measuring a massive 4½ inches by 9 inches. Each of the four notes is a work of art and prominently features a magnificent engraving of Lenin. The reverse of the 100 rouble note has a detailed engraving of the Kremlin. As an added feature, just hold the 50 and 100 rouble notes to the light and you will see another portrait of Lenin appearing as a watermark!

The set of State Treasury Notes contains three smaller size notes, in denominations of one, three and five roubles. All three are beautifully colored, particularly on the reverses. The two larger denominations are intricately engraved while the one rouble note was printed with the lithographic process.

Custom-Made Albums

Each set is carefully packaged in a deluxe custom-made album. The highest quality pages are used so that every note is completely protected and yet clearly visible from both sides. Each set also comes with a Certificate of Authenticity that guarantees that each note is genuine and once served as legal tender in the Soviet Union.

Reasonably Priced

A complete set of the remarkably lovely 1947 State Bank Notes is priced at just $49.95 including the Custom Album. The State Treasury Note set is only $24.95 with album. You can *save $4.95* by purchasing both complete sets for only $69.95.

Only 3,000 Sets of Each Type Available

We have obtained the *entire quantity available* from the Bank For Foreign Trade, only 3,000 complete sets of each type. Be sure to order today to avoid disappointment. These sets are an *outstanding value* at our price and are offered on a first-come, first-served basis. Once our small supply is sold out, it is doubtful that we will be able to repeat this offer.

A Philatelic Classic — Scott #315

Scott #315

You now have the chance to add to your collection or investment portfolio, one of the great rarities of all Twentieth Century United States stamps — Scott #315! This is the famous 5¢ blue imperforate Lincoln issue of 1908. According to the classic reference work by Johl, *The United States Postage Stamps of the 20th Century*, only 4,000 imperforate stamps are thought to have survived out of a total printing of 13,500. The remainder were privately perforated for use in vending machines. Today, mint imperforate copies are rare and seldom appear on the philatelic market.

At a major New York auction, Paramount acquired one of the largest blocks of Scott #315 to appear in recent years. This magnificent block of eighty-one is Mint and Never Hinged — post office fresh in every sense of the word! From this block, we are now making available to our many customers, mint pairs, blocks of four, and plate blocks of six.

There is no way to accurately measure the true scarcity of Scott #315. Many fine collections exist without a copy of this scarce stamp. With mint, never hinged turn-of-the century United States stamps bringing record prices seemingly every time they appear, NOW is the time to acquire *your* example of this highly desirable Twentieth Century rarity! Finer copies cannot exist!

Hurry! Once these stamps have been sold, we doubt if we will ever again be in the position to make such a spectacular offer. This is truly a *once-in-a-lifetime* opportunity for the advanced collector or investor. Call COLLECT to confirm *your* Scott #315!

U.S. Type Gold — Individual Pcs.

The most popular way to collect U.S. gold coins is to assemble a Type Set. A Type Set includes a representative example of each major design and denomination. Thus, a Type Set of Double Eagles ($20 gold pieces) will contain only two coins: A Liberty Head and a Saint-Gaudens.

The price of gold has been in the news recently and many new collectors have found that Paramount offers the widest range of grades and prices for gold coins in the numismatic world. This is only natural, as Paramount's multimillion dollar inventory and unsurpassed reputation for accurate grading and fair prices are well known to experienced collectors! When you shop at Paramount for gold coins, your satisfaction is guaranteed!

When ordering a Type coin from the list below, dates will be of our choice. If you are searching for a specific date, please write or call for prices and availability. Our Rare Coin experts are waiting to serve you.

A "Music Box" Stamp for Collectors

Essay stamps are to Philatelists as pattern coins are to Numismatists. Both represent experimental designs. Both were produced in extremely limited numbers. And neither were released for the public's use. But pattern coins often sell for hundreds of dollars (sometimes *much* more), while many essay stamps can still be purchased for reasonable prices. But this difference will not last forever. Essay stamps are increasing in popularity and prices are rising!

Paramount is proud to offer the extremely scarce and popular "Music Box" grill essay with points down. To produce this grill, a cylinder with small pin holes was rolled over the stamps. The points slightly puncture the paper, making the stamp more absorbent of the postal cancellation. That way, it would be more difficult to erase the cancellation in order to reuse the stamp. In retrospect, the Post Office was overly concerned about citizens trying to erase postal cancellations, and the costly grilling experiments were discontinued after a short time.

The "Music Box" grill essay we offer has the points down, meaning the grill cylinder was rolled over the obverse side of the stamp. This variety is much scarcer than the points up variety. Each stamp we offer is post office fresh and never hinged — the utmost in condition. As always with a grilled stamp, a few perforations will be irregular — the grill points weaken the perfs. But this is normal, and does not detract from the scarcity, desirability, or potential of this essay.

Order today to be sure of adding this extremely scarce "Music Box" grill essay to your collection or portfolio. Remember, pattern coins once sold for under $100. Today, they often sell for hundreds of dollars (and more!). Mail your order today.

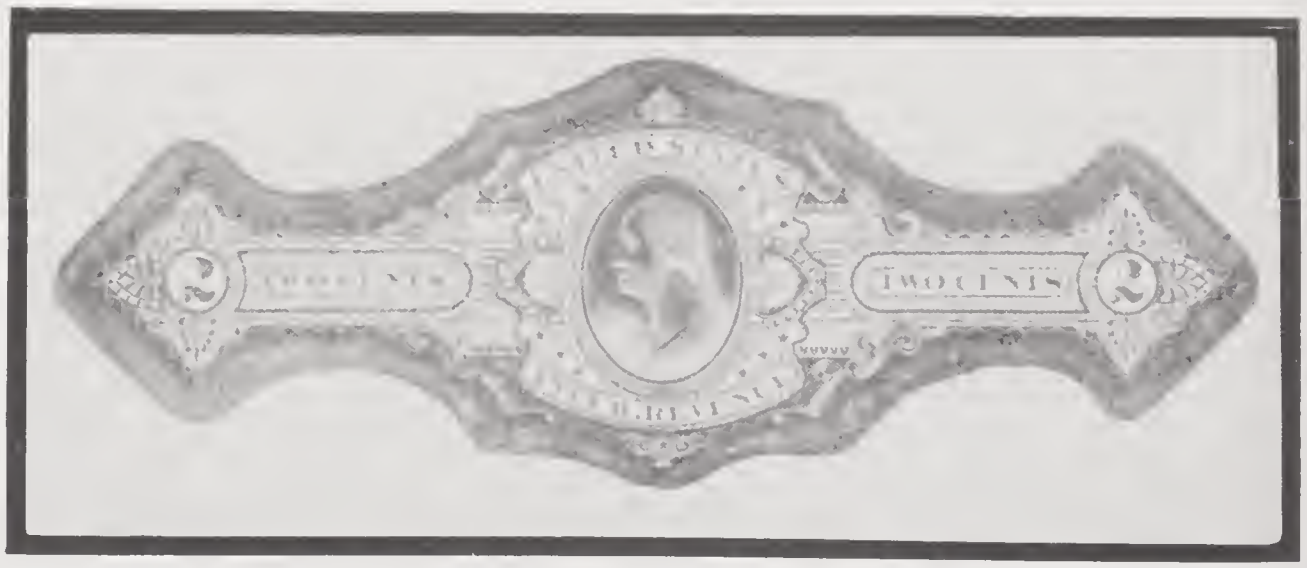
An Investor's Dream



United States stamp essays are proposed designs of stamps that were never accepted. Their status is identical to that of pattern coins except for one big difference — United States essays are *hot!* Choice examples of these scarce essays are constantly rising in value. Some stamp experts even insist this increased demand is just the beginning! Quantities are *always* very limited. But despite this tremendous potential, essays can still be obtained for much less than what a comparable pattern coin would bring!

One of the items we offered at our Spring auction sale was a 2¢ blue Internal Revenue essay. With auction sales of $200 and more for inferior examples, our choice essay quickly realized $450 after spirited bidding! Immediately after this sale, we were approached by a gentlemen who owned a small quantity of this scarce essay — each as nice as the one in our auction. Instead of consigning them to our next auction, he wished to sell them outright and a purchase price was quickly agreed upon. We were very fortunate to acquire this outstanding group and have decided to spread our good fortune to our many customers. You may now take immediate advantage of this purchase by adding one of these scarce and beautiful essays to your collection for only $295!

Each essay consists of an engraved die impression printed on heavy card and surrounded by a wide embossed border. *Only 250* of these rare and unbelievably beautiful essays were printed in the early 1870's and each is individually serial numbered on the reverse. Undoubtedly, many have either been damaged or destroyed in the 100+ years since they were printed, and the actual number of choice essays currently available, including the ones we are now offering, is obviously much less.

Take advantage of this opportunity to own a great rarity in a growing field — and at a reasonable price! Order today.

Seldom Available Silver Coins of Latvia

As an autonomous country during the 1920's and 1930's, Latvia, now part of the Soviet Union, produced several very attractive coins. These coins are a favorite of collectors the world over and are eagerly acquired whenever encountered. Among the most popular are Latvia's three silver coins — the *only* silver coins Latvia ever issued. These three coins are the 1 Lats, 2 Lati, and 5 Lati. With an already small original mintage, it is very possible that many of these silver coins did not survive the forty-five years which followed their issuance. Undoubtedly, the Second World War and the silver melts took their toll. But Paramount has been fortunate to locate a small quantity of these popular and historical coins and have mounted them in a specially designed, custom hard plastic holder. All three coins will grade *Very Fine* or better and will feature the Latvian Coat of Arms. The obverse of the 5 Lati shows the profile of a young female, symbolic of Latvia. The reverses of the other two coins show the date and denomination surrounded by a wreath. Each coin in this set will be at least forty-five years old.

One of the most popular fields of world coin collecting is the coinage of countries which no longer exist. There are many such countries, but perhaps the most popular and best known of all is LATVIA. This popularity coupled with the limited availability of Latvian silver coins combine to make this attractive three-piece silver set a certain favorite with collectors. Place your order today!

Rare Coin Investment . . .

— An Investment Alternative That Might Be Right For You!

In these days of devaluation, double-digit inflation, and uncertainty about the economy, it is refreshing to know there is one form of *long term* investment, that has kept pace with the cost of living *plus* has an excellent record for returning good profits to those who are patient. Rare Coins and Rare Currency are such an investment. Over the last decade, prices have increased tremendously for such coins and currency. Even though many people have realized substantial profits, rare coin and currency investment is not for everyone! Usually only those who are willing to invest their money for a minimum of five years, will realize the maximum potential from their investments. To those who are patient, the rewards are often great. Naturally, no one can guarantee the future will yield returns as great as those of previous years, but all present indications point to a healthy *rare coin* market for years to come! Just look at the performance of some randomly selected rare coins over the past 10 to 20 years as reported by *A Guide Book of United States Coins,* by R.S. Yeoman.

To join the Paramount Investor's Club, please fill out the application form on page 69. There are no membership fees and you may cancel your membership at any time. Your only obligation is to pay for the coins you wish to keep in your portfolio. YOU SELECT YOUR AREA OF SPECIALIZATION

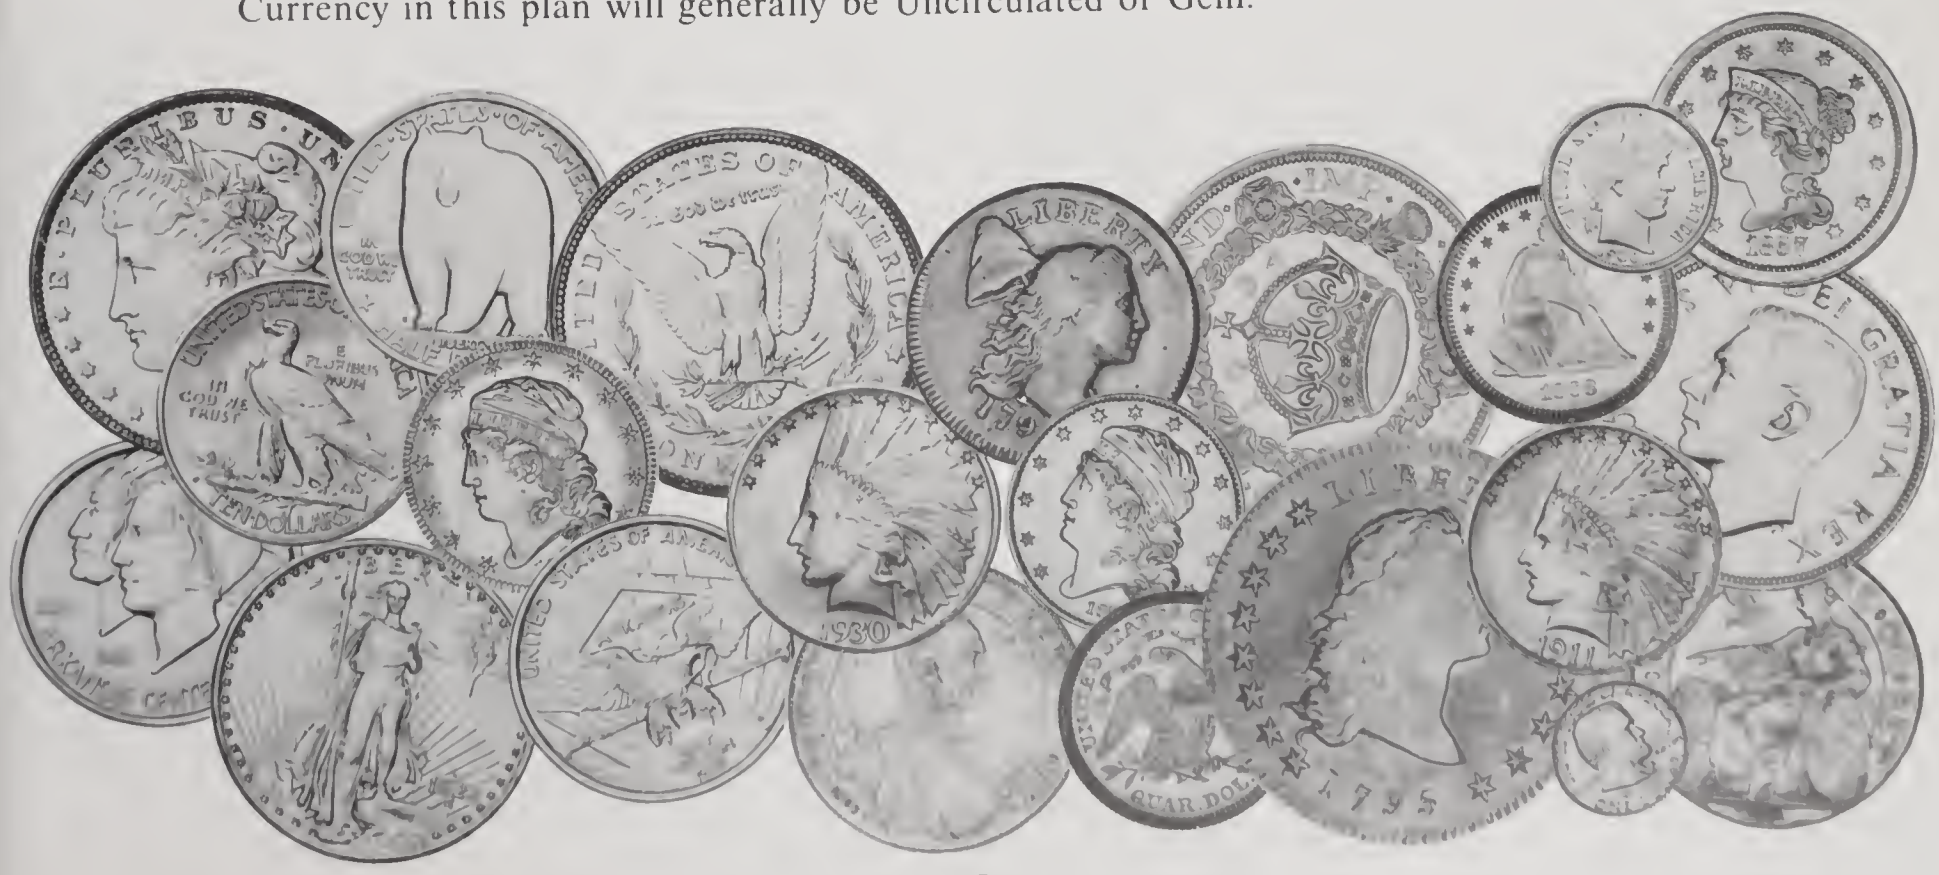
Many rare coin investment programs do not give the client much choice in regard to the coins he receives. Paramount is different. We offer you six main areas of specialization from which to choose. Unless you inform us otherwise, all the selections you receive will come only from the area of *your main interest*. The condition of the coins you receive will be the highest possible.

- **Silver Dollars** — Silver Dollars have been among the most rapidly appreciating coins in recent years. In fact, Silver Dollars are the most widely collected denomination of U.S. coins. Paramount is the leading dealer of quality Silver Dollars. We carry a large inventory of dates at all times. Over the years, we have assisted many collectors in acquiring complete sets of silver dollars. All silver dollars in this program will grade Mint State 60 or higher.
- **Commemorative Coins** — Commemorative coins are considered by some to be *the* most underrated of U.S. coins. Mintages are extremely low when compared to other series. Prices on the other hand are very reasonable when you consider the mintages. Paramount always has a large selection of mint state commemoratives available. All commemorative coins in this program will grade a minimum of MS-60.
- **Rare Date Gold Coins** — A very specialized area primarily intended for the more serious investor or collector. Included are rare individual dates, beautiful and rare gold proofs, etc. These coins are generally available only to the investor selecting the $1000 (or higher) per month program. Truly rare and choice gold coins just cannot be acquired for lesser amounts. Price appreciation for such coins has historically been very favorable. All rare date gold coins included in this plan will grade EF-40 or higher.
- **United States Type Coins** — Type collecting is one of the more popular methods of collecting. This program involves the acquisition of a representative example of every U.S. coin design. Specific dates are not collected — just a representative example of every design — half cents through silver dollars. This program *can* also include gold types, if you desire. All type coins sent in this program will be in the highest grade possible.
- **Specialized** — Our specialized program is just that — specialized to fit your own personal desires and goals. We will gladly assist you in assembling a set of Indian Head Cents, Shield Nickels, Liberty Nickels, Barber Dimes — or whatever. You tell us specifically what you want in your portfolio and we'll take it from there. Personal service to you is our objective with this and all our investment programs.
- **Currency** — Many believe the real popularity of rare currency collecting is still to come. Currency offers rarity, quality, and magnificent artistic beauty. Paramount has been dealing in this area for several years and is known for handling notes of the highest quality. Currency in this plan will generally be Uncirculated or Gem.



FEW INVESTMENTS ARE AS IMPRESSIVE AS **RARE** COINS

Here are graphs indicating the progress of several areas of rare coin investment over recent years. The values used were derived from *A Guide Book of United States Coins* (Red Book), by R.S. Yeoman. This catalogue is recognized as the most authoritative pricing guide in U.S. numismatics. Actual prices of rare coins will vary (higher and lower) than those listed. Even so, these graphs clearly show the steady direction of the Rare Coin Market.

U.S. FRACTIONAL CURRENCY

In the absence of circulating coinage during the Civil War, merchants resorted either to bartering or various denominations of postage stamps to make change. This quickly led to a sticky situation, literally speaking. The gummed stamps soon became dirty, unusable wads of paper as they stuck to each other and anything else misfortunate enough to make their acquaintance. The government remedied this situation by issuing perforated pieces of paper with postage stamp designs on them and the statement that they were "receivable for postage stamps at any Post Office". These notes were called *Postage Currency*, and are the earliest forms of Fractional Currency. Later the pretense of these notes being pseudo-postage stamps was dropped and they began to look more like real paper money.

Surprisingly, the little notes proved unforeseeably popular — so popular that the Treasury continued to issue them until 1876, long after the Civil War. Fractional Currency proved much more useful than coins for sending small amounts of money through the mail undetected, and they didn't wear holes in their owners' pockets. Like the coins of the day, they were issued in many convenient denominations: 3¢, 5¢, 10¢, 15¢, 25¢ and 50¢. And to this day the Treasury will still redeem them for face value.

3 CENT NOTES

FR-1226, Portrait of Washington with white background. A very rare full uncut sheet of 25 notes. Only a very few of these uncut fractional currency sheets survive today and they are very undervalued when compared to the price of a single note. A super buy at this price. The sheet has a few folds between the notes and trivial flaws as could be expected from such a large piece. **AU** 1075.00

United States Stamps

All Stamps Listed By Scott Numbers

Any stamps that Paramount Philatelics offers to buy or sell will be strictly graded and will always fall into one of these descriptive categories. These will describe the appearance of the stamp and its actual grade.

They are as follows:

XF — Extremely Fine, Superb — A condition of perfection seldom encountered

VF — Very Fine, almost perfect

F-VF — Fine to Very Fine — Normal desired centering

FINE — Slightly off center, perforations do not cut design

VG — Very good, off center, perforations cut design

NH — Never hinged

LH — Lightly hinged

H — Normal hinging

HH — Heavy hinging

HR — Hinge remainders

NOTE: Certain 19th Century issues were perforated very close to the design. In some cases it is possible to have a well-centered stamp with the perforations just touching.

ONLY 368 MINTED!

Enjoy and Possess

The KING OF MODERN RARITIES contains .49 Troy ounces of gold and boasts the mini-mintage of 368. It's the rarest of the rare!

Actual size: 27 mm

Sir Winston Churchill — England's Man of the Century — is honored on what is perhaps the Coin of the Century! This coin has risen an astounding 480% in four short years and the end is nowhere in sight!

The KING of Modern Rarities!

Order now and you may own a legend — the 1974 Cook Islands $100 gold coin in Brilliant Uncirculated condition. Called the KING OF MODERN RARITIES, only 368 pieces were struck. No coin in recent history has ignited the imagination of more collectors!

The 1974 Cook Islands $100 Brilliant Uncirculated gold coin was issued to commemorate the 100th Anniversary of the birth of Sir Winston Churchill — England's Man of the Century! The reverse design features a stunning relief of Churchill with the Union Jack and House of Parliament in the background. These gold commemoratives were struck at the internationally famous Royal Australian Mint — your assurance of minting perfection.

When the Cook Islands joined other nations in commemorating the 100th Anniversary of Sir Winston's birth, it didn't spare the gold. This Commonwealth country put .49 troy ounces of 22-karat gold in this virtually unobtainable coin. A golden edge in this time of rising gold values and debased coinage.

The King of Modern Rarities has risen from an Official Issue Price of $250 to today's $1450 — an astounding 480% increase! And they are harder for us to buy today than ever before!

If an historically significant gold coin with a mini-mintage of 368 appeals to you — CALL US TODAY, RIGHT NOW! We are positive the few coins in inventory will be sold quickly. Possess the KING OF MODERN RARITIES — call or write today!

1921 Peace Dollars — An Unusual Opportunity!

Here is one of those "once-in-a-blue-moon" numismatic opportunities! For several months we have had considerable difficulty locating original, mint state, 1921 Peace Dollars at coin shows, auctions, etc. Sure, we might find two or three each month, but the demand from our own customers is much greater than that!

Then it happened!

A gentleman came to our office and sold us three original rolls of 1921 Peace Dollars. He told us he had acquired them many years ago when they sold for a mere fraction of today's price. It was obvious these coins had remained undisturbed for years as each had acquired a beautiful toning. Our buyers were particularly impressed by the above average strike each of these coins displays. As you know, most 1921 Peace Dolalrs are rather flatly struck. Ours are not!

Since only a little over a million of these coins were struck in December, 1921, few were saved at that time by collectors. Their scarcity is well known but can best be amplified by these quotes from leading silver dollar books:

"As the first year of issue and because of their desirable high relief, well-struck 1921 Peace dollars are very much in demand."

An Analysis of Morgan and Peace Dollars
Wayne Miller

"This issue grew by 1,350% in the 14 years between 1961 and 1975 . . . the 1921 issue is climbing away from the Peace dollar series' average performance."

Silver Dollar Encyclopedia
Jim Osbon

"Highly recommended in Choice B.U. condition with average strike. A fully struck coin is recommended to the more knowledgeable buyer . . . (Very Underrated)."

Silver Dollar Fortune Telling
Les and Sue Fox

Now YOU may buy this very scarce date in either MS-60+ (above average strike) or MS-65 (well above average strike). All carry our standard and exclusive silver dollar SIX-MONTH MONEY BACK GUARANTEE OF SATISFACTION, too! YOU MUST BE PLEASED! Order now as this offer is certainly going to be one of the most popular of the season.

1921 Peace Dollar, Mint State 60+, above average strike and original toning $350.00

1921 Peace Dollar, Mint State 65, well above average strike and original toning.. $495.00

P.S. *Don't forget!* You have *six full months* to decide if your investment in one of these dollars is right for you. If not delighted, return for a full refund.

Superb Photography . . .

IS one of the main reasons why Paramount's Auctions attract large crowds and spirited bidding. Collectors like to see the coins on which they are bidding. Consignors like clear and enlarged photos, too, because their coins usually realize higher prices.

Photography IS very important.

That's why Paramount has **three** professional photographers on its staff — Tom Mulvaney, Jim Harting and Don Slouffman.

That's why Paramount has the largest in-house photographic facilities in numismatics.

Low Commission Rates, Too!

The sharpest, clearest photos in the rare coin auction business along with extensive researching and cataloguing don't cost an arm and a leg with us, either! In fact, Paramount's commission rates are among the most competitive in the business.

Here are our commission rates. There are no hidden charges!

Total Value of Coins Consigned	Commission Rate
$1000 - $2500	20%
2501 - 5000	17.5%
5001 - 25,000	15%
25,001 - 100,000	12.5%
100,001 and Up	10%

And — another factor to consider: We do not charge a commission rate to successful bidders!
